

**FRESNO, CALIFORNIA
CLASS SPECIFICATION**

COLLECTION SYSTEM MAINTENANCE OPERATOR

FLSA STATUS:

Non-Exempt

CLASS SUMMARY:

The Collection System Maintenance Operator is the second level in a four level Collection Systems series. Incumbents are responsible for performing the full range of duties involving the servicing/cleaning, maintenance, inspection, repair and construction of wastewater collection systems.

In addition to regular work shifts, incumbents may be required to work nights, weekends and holidays in all weather conditions.

The Collection System Maintenance Operator is distinguished from the Assistant Collection System Maintenance Operator by its responsibility to perform more technically complex tasks. The Collection System Maintenance Operator is distinguished from the Senior Collection System Maintenance Operator, which is responsible, as lead worker, for making work assignments, overseeing the work of other Collection System Maintenance Operators, training, ordering and distributing supplies, preparing reports, and performing administrative tasks in the absence of the supervisor
